Jason,

Just checking in. Any status update?

Thanks,

Lauren

Subject: Next Steps on Diesel Brothers

Jason,

We appreciated having the opportunity to speak with you again last Friday. We look forward to receiving a draft of the disclaimer you proposed. We think the audience for your show would benefit from seeing a statement of the law regarding aftermarket work on vehicles.

Since our conversation last week, we have seen the final episode of Season 2. Regarding the compressed natural gas addition to the Mega Ram, please note that any such modification must be certified pursuant to the Clean Air Act regulations in Part 85, Subpart F, "Exemption of Clean Alternative Fuel Conversions From Tampering Prohibition." Here's the EPA webpage covering the requirements: <https://www.epa.gov/vehicle-and-engine-certification/vehicle-and-engine-alternative-fuel-conversions>

Please let me know when you expect to have a draft ready for review.

Best wishes,

Lauren Tozzi, Attorney-Advisor
